

Todd Masse Bio

Todd Masse is a member of the Senior Security Leadership Team and a Program Manager for Security, Counterintelligence (CI), and Insider Threat (IT) within the Security Services Department (SECD) at The Johns Hopkins University Applied Physics Laboratory (APL).

Todd partners with Laboratory leadership, Department and Sector Security Representatives (DSRs), various stakeholders across the Laboratory, and with external law enforcement, national defense, and intelligence community partners to protect technologies, programs, and information at APL; keep Staff informed of threats; and to support the APL security culture.

Todd earned a BA from The University of Massachusetts (Economics and Political Science), an MA from The American University (International Affairs – Defense and International Economic Policy), and an MBA from the University of Maryland (Finance).

He has worked for the Federal Bureau of Investigation (FBI), the U.S. Department of Energy, the U.S. Congress, and the U.S. Nuclear Regulatory Commission.

He has testified before Congress numerous times as an expert witness on intelligence and homeland security issues and published a book on nuclear terrorism (Nuclear Jihad: A Clear and Present Danger 2011, Potomac Books).
